Everything in this call out will be censored

Edit (because some of you guys are taking this too far):

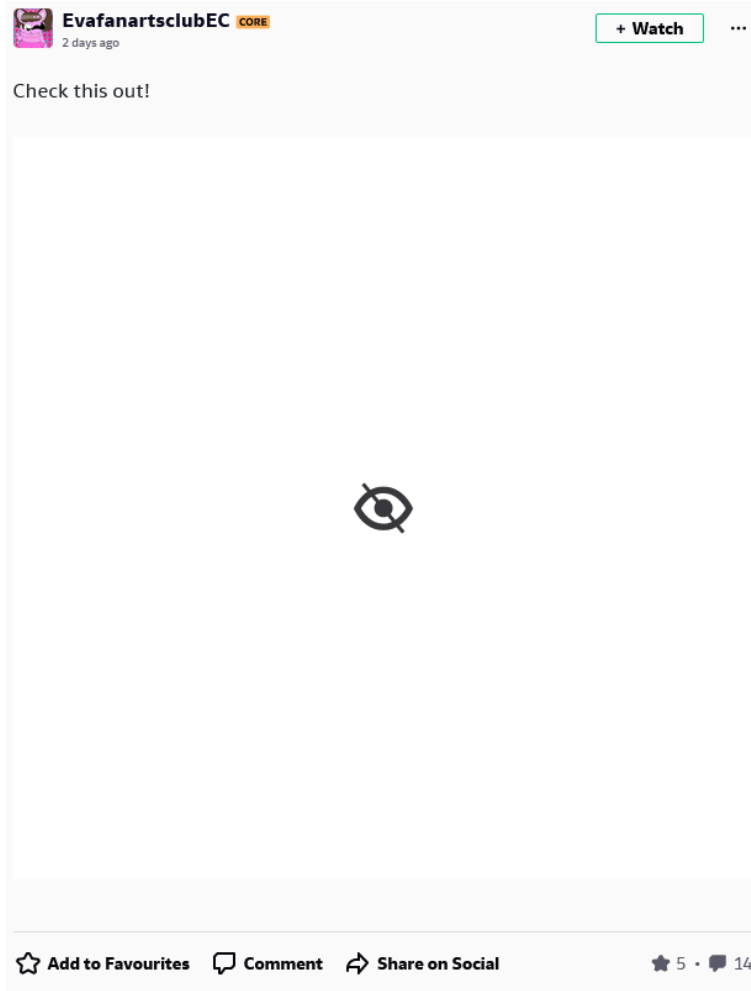

Please do not go out of your way to harass and send hate to her, I ask just to block her

Edit:1/18/25 Also please stop spamming people with this doc and telling everyone she's a "P*do"

She's 15, she can't be a p*do but if what she's doing is wrong and harmful

Hello, I'm not one to make a call out journal on someone let alone someone I've only seen in passing. But I thought I should seeing as how severe their actions are and this isn't the first offense from what I learned

So I went on to their account because they faved on of my pictures and I recognized them from others people I watch doing collabs with her. I decided to check out what they've posted and seeing a giant maturity warning on this status she was sharing, I was curious on what it was.

And well... this is what I'm greeted by

Seeing that she can't even view what she shared made me wonder how old she was. The kid is only 15!

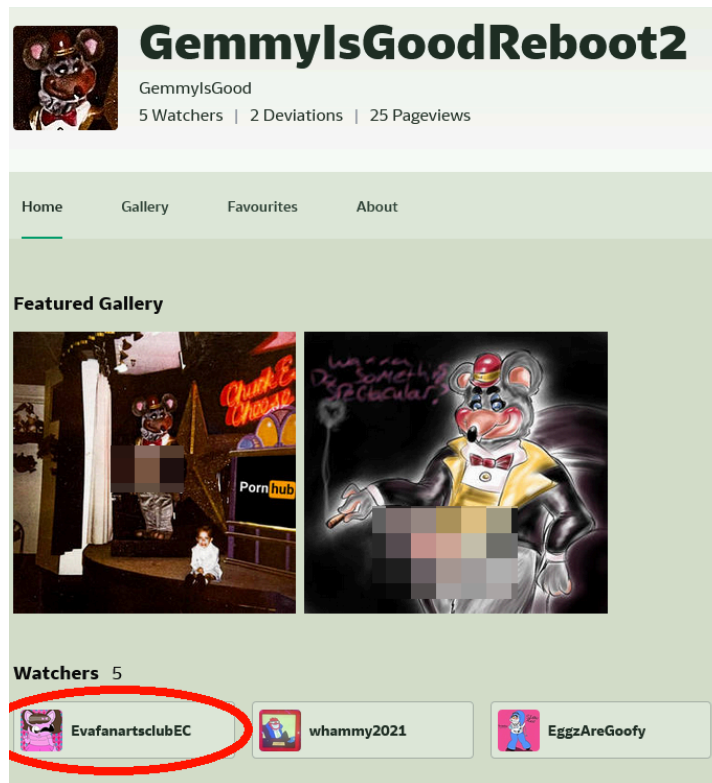

Seeing that she was a minor herself I warned her that this isn't right to be shared.

SugaCoco77 CORE+ 1 hour ago

You are a child you shouldn't be posting this kind of stuff! and to distribute it to other minors is a sexual offense

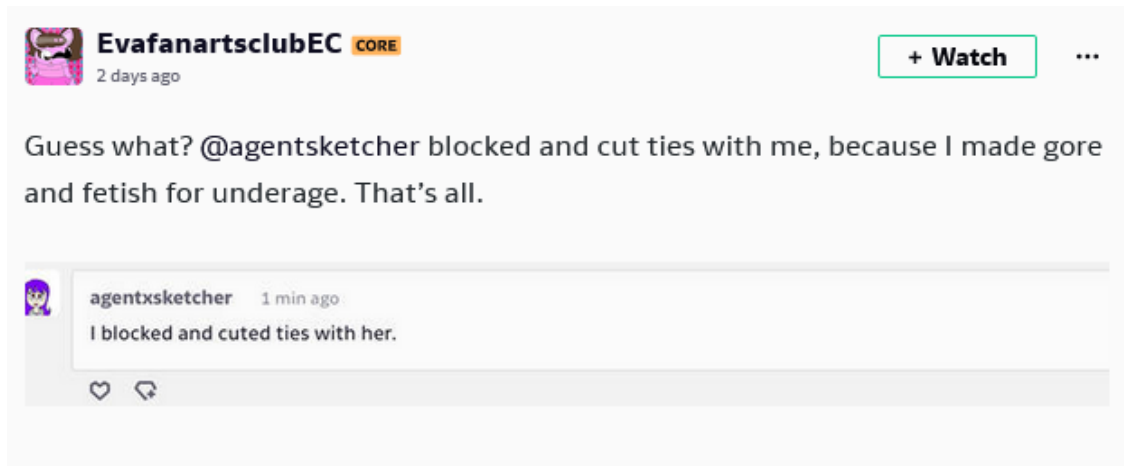

I then decide to check the rest of their page and it's just littered with fetish art. Inflation, Pregnancy, Gore, Diaper, Fart, ect. And she's watching NSFW trolls like this one

To save me from censoring all the images in her faves here's the results for NSFW and Fetish images in her favorites

Results for "NSFW" in All	About 191 results
Results for "Fetish" in All	About 263 results

She also makes posts complaining that people are blocking her because she sends nsfw unsolicited

The comment underneath this. Showing that this isn't a one occurrence

Afishonlegs Edited 2 days ago

Okay, Eva, listen to me. As your best friend, I genuinely want to help you, so being that I do, you need to listen to me.

It seems that a lot of people blocked you and I've been seeing it happen far too frequently. But, don't you think you should take a second to realize that it's you who might be causing this to happen? I mean, if that many people block you, that's usually a sign you're doing something wrong, which in this case, you are.

The reason behind why people keep blocking you is because you're inadvertently disrespecting their boundaries by sending NSFW, gore, and vore fetish art their way, with little to no consideration for whether or not they're comfortable with those things.

And with this person, of course they'd block you, I mean, look at what you did! Sent them porn of UNDERAGED characters as well as gore, and yet you find nothing wrong with it?

Eva, I love you, I really do. That's why I'm gonna try everything that I can to help you change as a person. Of course, I can't just automatically knock these habits out of you, but I can try recommending alternatives to ensure that you're safe and that the people around you aren't made uncomfortable.

Again, I sent Eva a warning 2 hours ago (I see that she's active online right now) but she's choosing to ignore it and continue down this path and exposing other minors to sexual images, which is disgusting

Minors should stay out of fetish and NSFW spaces, for their own and others safety!

Update 6/7/24

I was just tagged in a comment on talking to Eva and she said that she's going to stop requesting NSFW art which is great

However looking at their other status comments I came across something that shocked me

There's no nudity but I still censored it

Update 6/11/24

She's still making inappropriate requests and getting upset when she said she was going to stop. Although it's not nsfw it's still inappropriate for a 15 year old to be requesting characters in their underwear

All right so it's been awhile since this has been updated and I really was hoping I wouldn't have to update it. But I got a post recommended to me claiming that Eva was one of the "Best users on DA" or something like that. So I was curious on if she's changed in 2 months. Spoiler alert: she hasn't

She's putting this on the internet for predators!

Don't know how I missed this in my past updates but here is her saying "don't make NSFW of my sona" to known trolls and nsfw artist, while sending a picture of her sona. That is her asking for it to be done.

Here's her saying that she's still grateful that she requested NSFW from EggzAreGoofy/ Gemmy

Update 10/10/24

I just wanted to thank everyone who has shared this doc. Spreading word of what Eva has done. I hope for in the future they will learn from their mistakes but from what I've seen she's still getting involved with NSFW works

I saw some people say "she doesn't like NSFW anymore" well

These were taken today

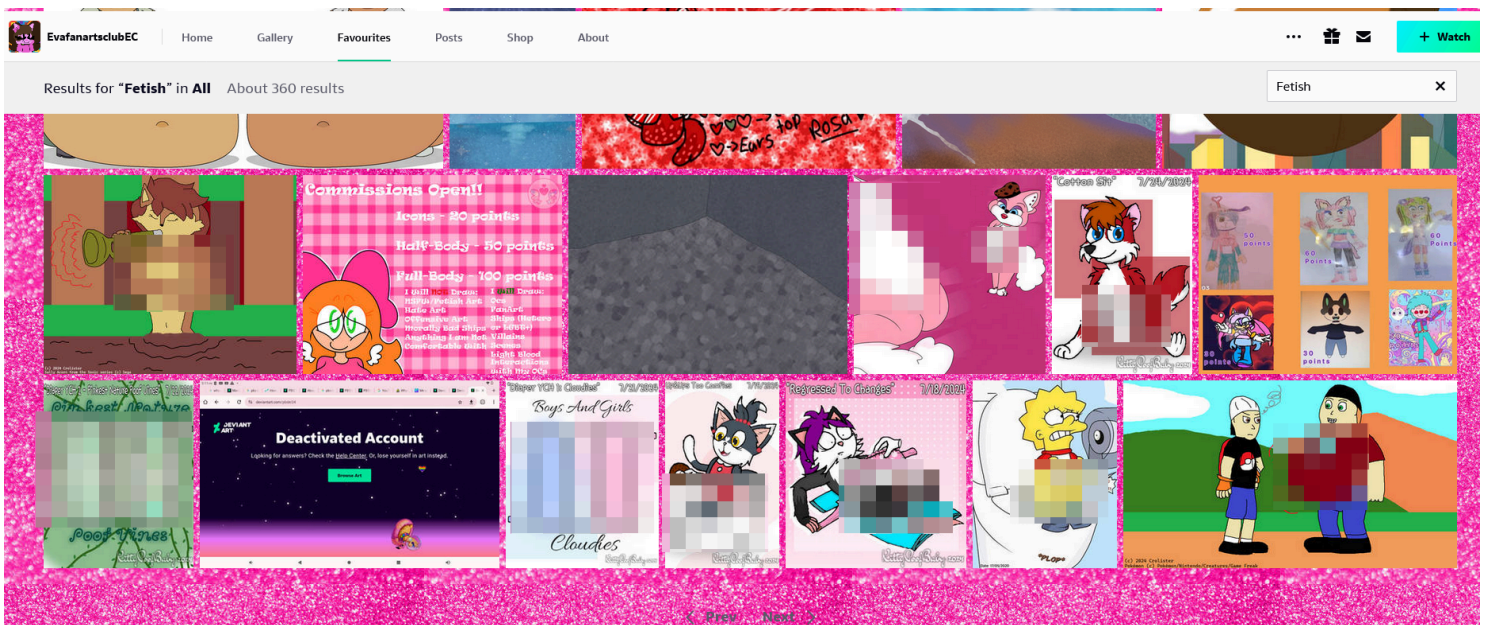

Results for "NSFW" in All About 260 results

260 compared to 191 before

Results for "Fetish" in All About 360 results

360 compared to the 263 before

And now not only has still like fetish art of inflation but is now faving diapers and toilet art

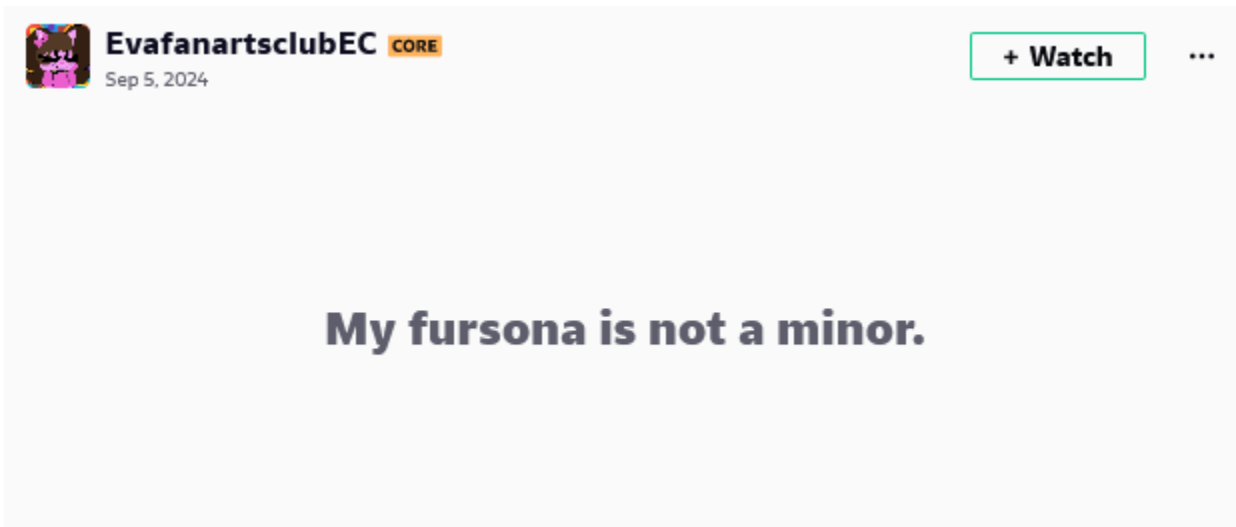

Also note Lisa Simpson is an 8 year old!! Why the hell would someone Make that!

Update 10/11/24

Forgot to add these yesterday ^^;

Now she's acting that if she lying saying her persona isn't a minor it makes all her inappropriate activity ok. Which it is not, she is still a minor. It doesn't matter if you make the character 1000 years old. You are still a child

Her reference sheet for her persona and herself saying she's born in 2009

All this proof shows that she's a minor but she also had a gallery on her DA for her "mature content art" which includes the fetishes of butts, boobs, farting, using the toilet, gore, and bondage

And no I am not saying "Boobs and butts are overtly sexual" no, those are natural body parts but in this context she is making it sexual and even in her own admitting is saying it's mature content that she (a 15 year old) is sharing to the world

11/17/24 Don't Make Threats

I can't believe I need to say this but please do not go out of your way to harass them to the point of giving death threats to Eva. I've seen so much hate art of her being beaten and so many slurs being thrown at her. It really makes me sick. I made this doc to warn people of her actions not to send hate. Remember she's 15, that is still a child you're sending hate to. Just block her. the hate art is just low

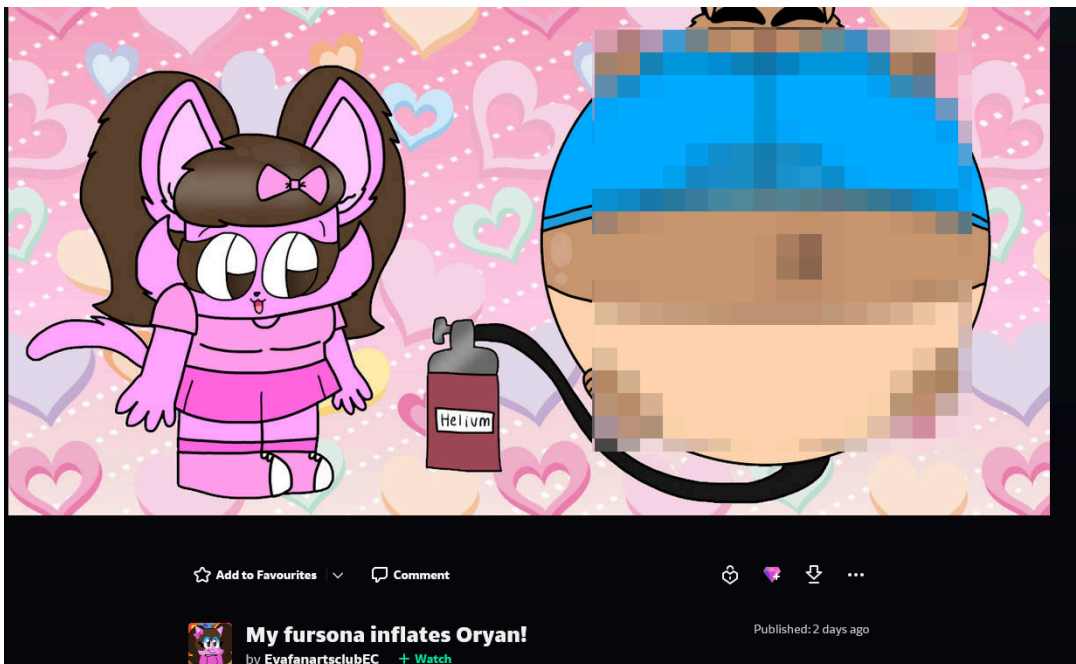

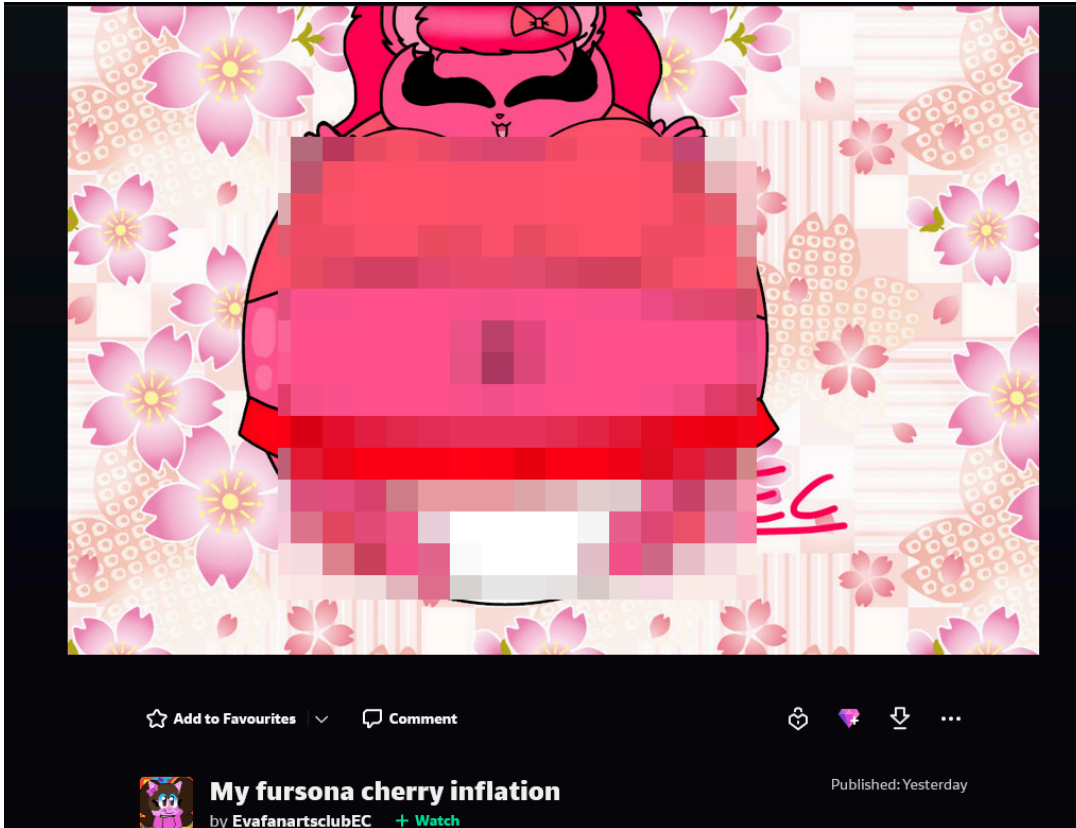

Update 12/11/24

Sigh I was going to leave this alone but I had people thanking me about warning them of her and I was just curious on what was happening.

This is her saying that she stopped making NSFW and fetish work. Screenshot from 3 days ago

But then she posted 2 different inflation fetish art just 4 days ago

And also this (I know it's not really nsfw but it's still a character in her bra and underwear which she describes to be "sexy", also no idea if this character is a minor or not but seeing that they're made by one I rather be safe an censor)

Here is my Teddy Ruxpin OC Maggie Mae wearing her own sexy Christmas bra and underwear, but she has gote some stocking too!

And even when she still has people warning her this is inappropriate she ignores them thinking it's fine

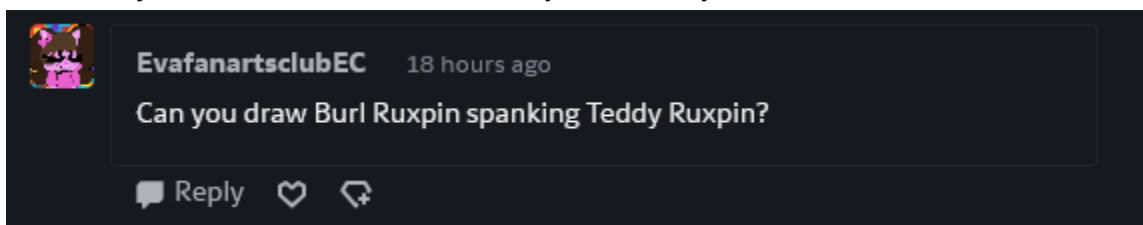

Again these are from the last week. She has lied about not getting involved in adult situations when she does it constantly. She has Not Changed.

She is also still making NSFW requests to other users

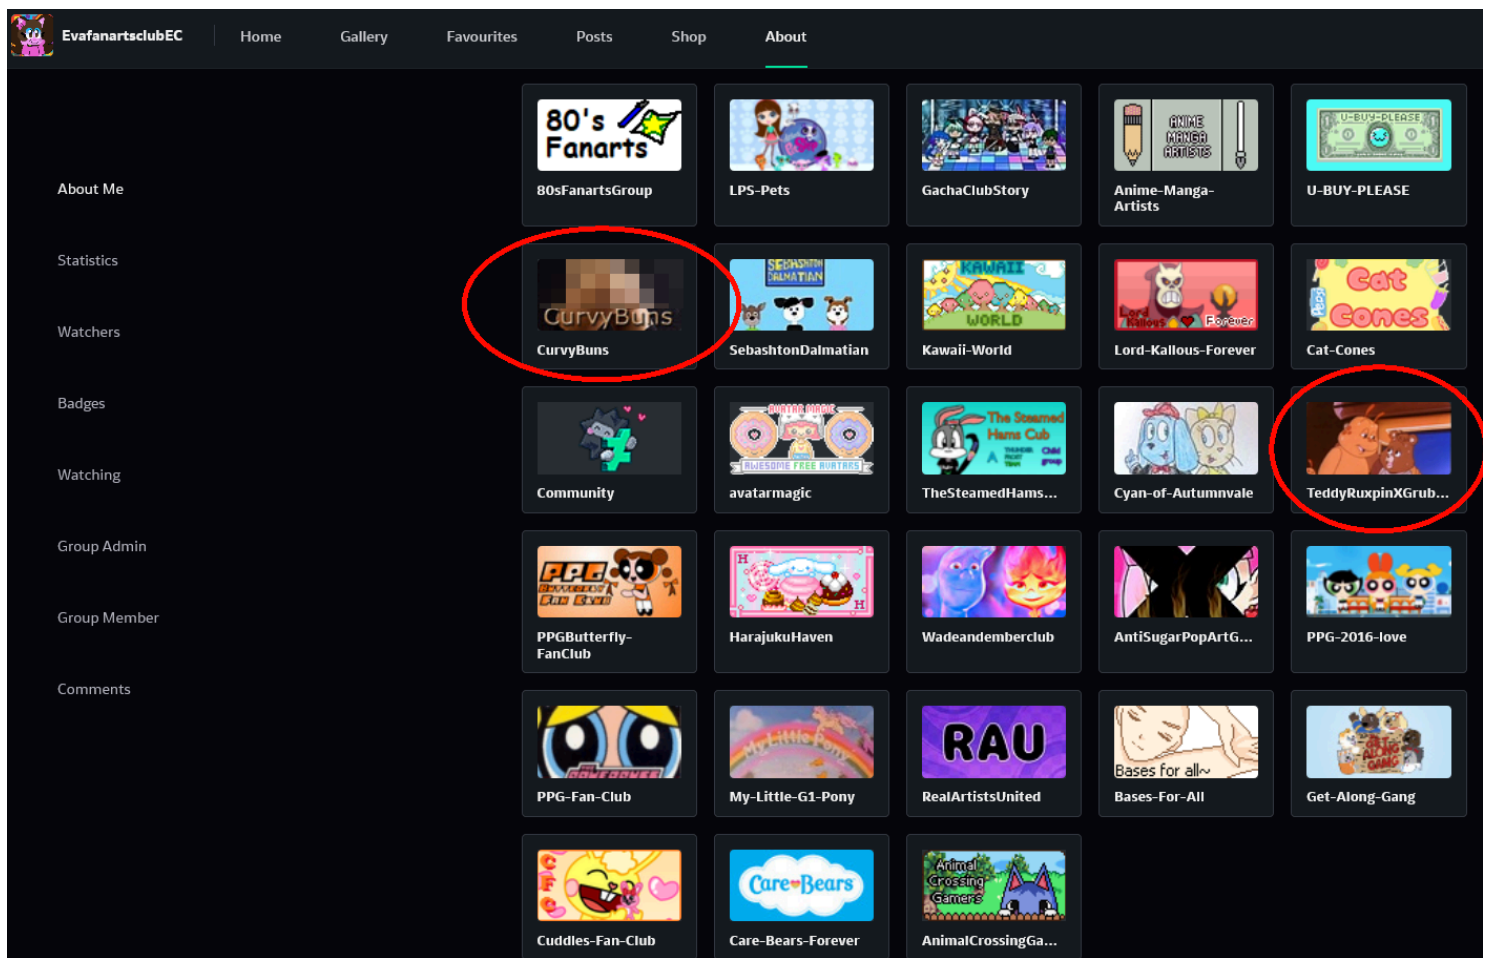

This one I just took the screen shot off so you can't say it's old

There is also the groups that she still follows

Update 12/26/24

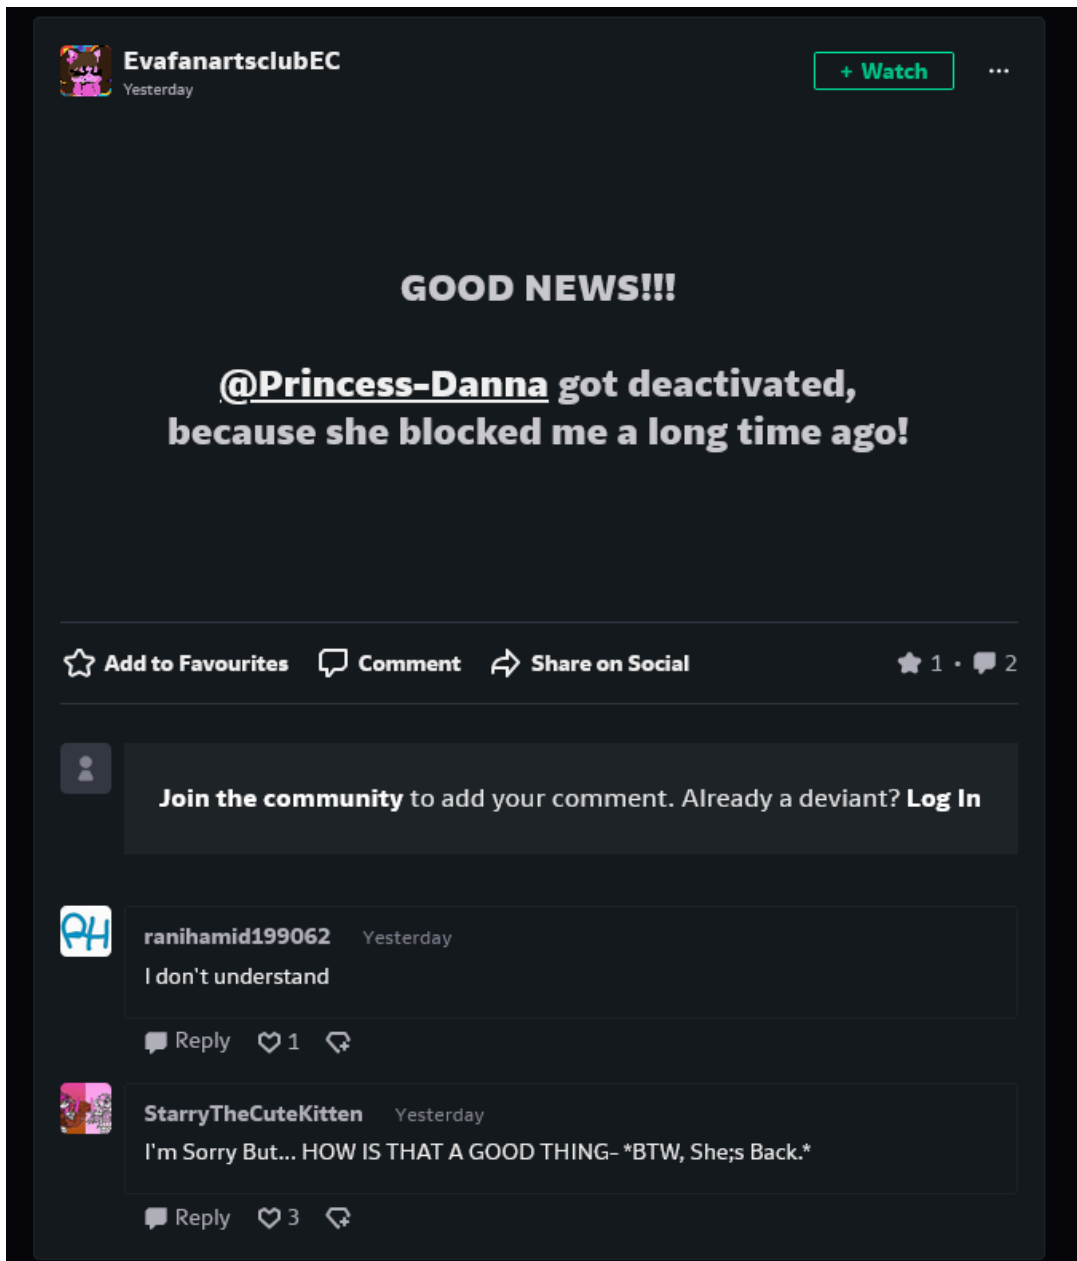

Just another thing I like to add for the last update that I missed, she's also in another NSFW group called anthroxxx-furrylife

Would have updated earlier but with Christmas I had no time. In just a few days she's already done some horrible stuff and is still lying to her watcher

For some context for the points, my friend Princess-Danna deactivated her account for 2 days because of a horrible user that spammed irl gore and NSFW on her page. And she needed to get away from that. It was a really hard time for her and her friends. Well I saw that Eva was asking another user to ask Danna to unblock her.

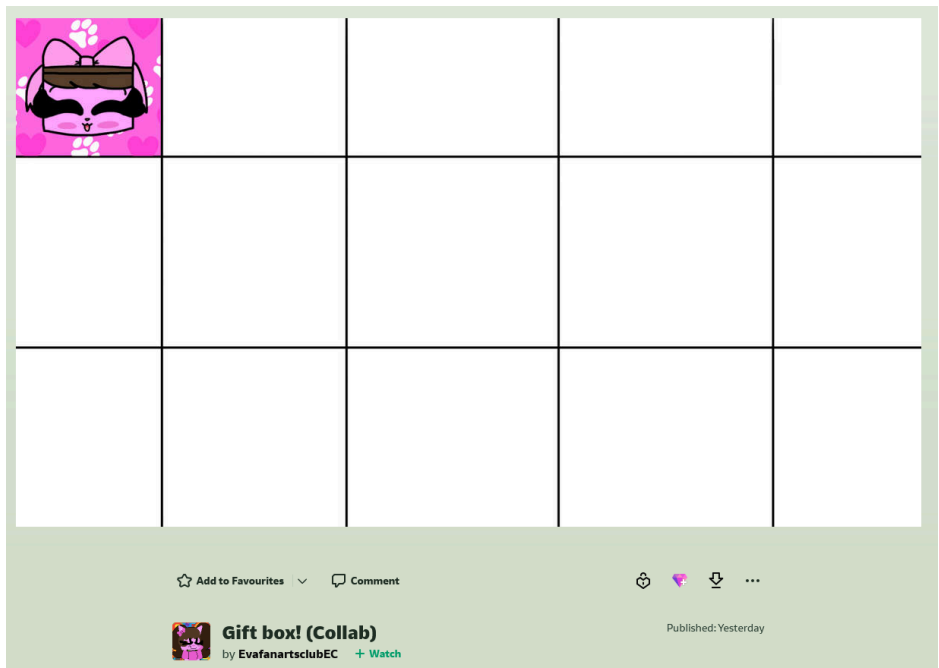

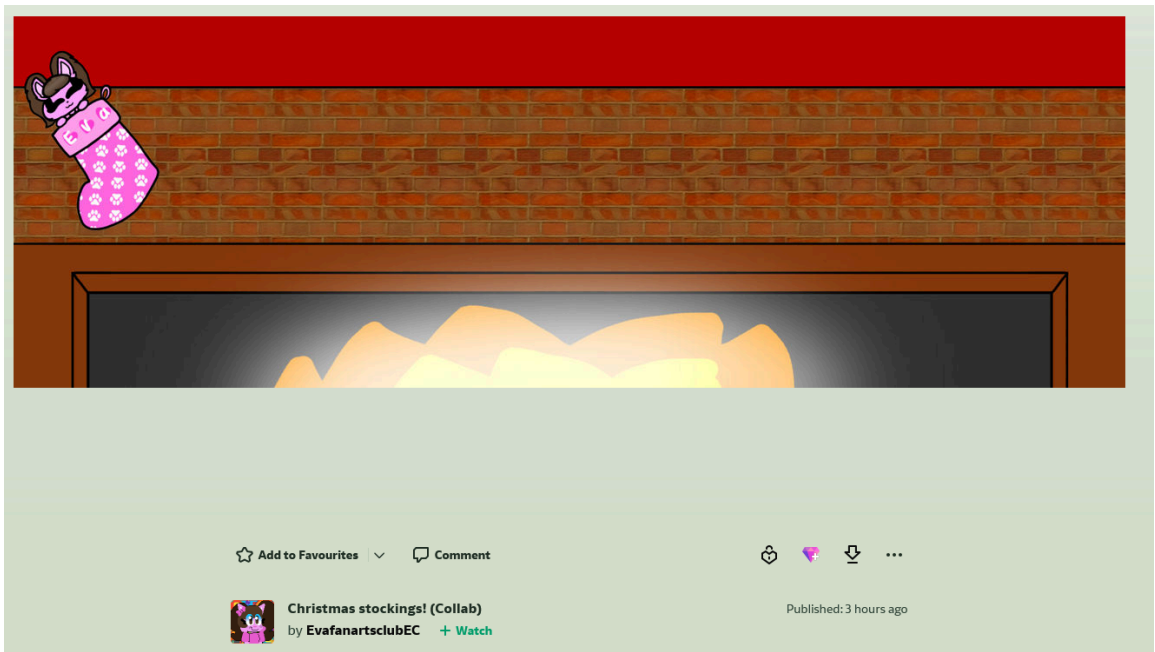

And when she found out that Danna was deactivated look how she responded

How can you do from one minute begging her to unblock you to celebrating her deactivating!?

And you know what makes it even worse? She then tried to take Danna’s ideas for collabs and claim it as her own just days after Danna posted hers

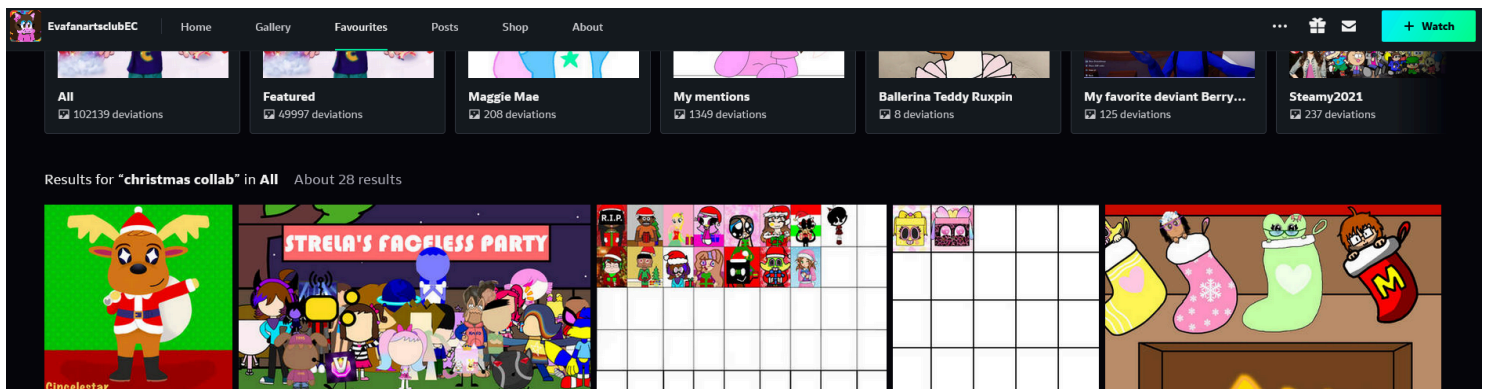

She's claiming she didn't but...

Just look in her faves and you can see that is a blatant lie!

Also another user came to me saying that Eva has stolen her art in the past as well and they had to file a DMCA to get it down. Trying to find the screenshots but can't seem to find them at the moment. But this is further proof she's a thief

Edit: 12/29/24 (found it)

Excuse me! Can you repost the two art trades of Teddy Ruxpin in a diaper that you made for me?

Reply

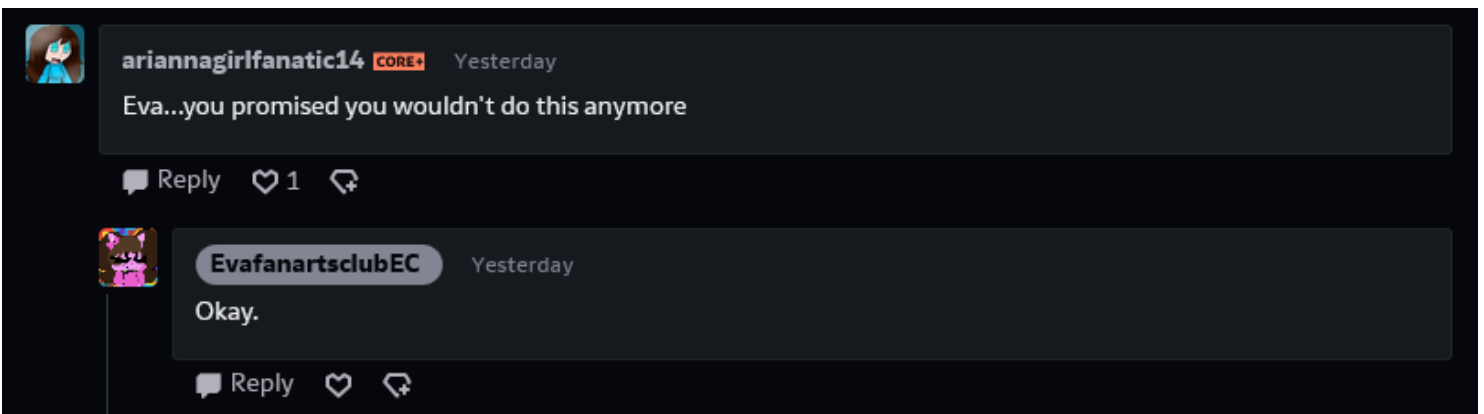

The user she asked to post the diaper art of Teddy Ruxpin is a 28 year old adult diaper fetish user. the “I stopped NSFW and Fetishes” in an out right lie when she’s going to these adult users and requesting stuff like that. She’s also commenting on NSFW drawings lie “Get Along Gang Bang” that has a mature content warning

And yet again more blatant lies

More inflation fetish posted on her page on Christmas day

No, you just saying "Okay." isn't cutting it anymore! You are a child and are exposing other children to this kind of stuff

Update 1/6/25

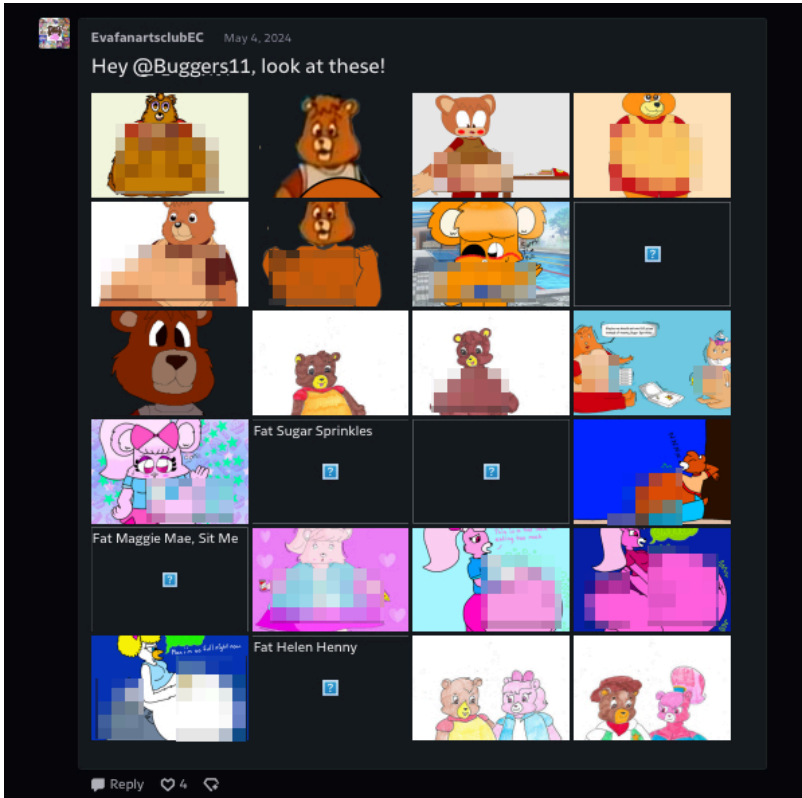

New year. Same sh*t

She's made a new reference for her fursona and noticed things that contradict each other

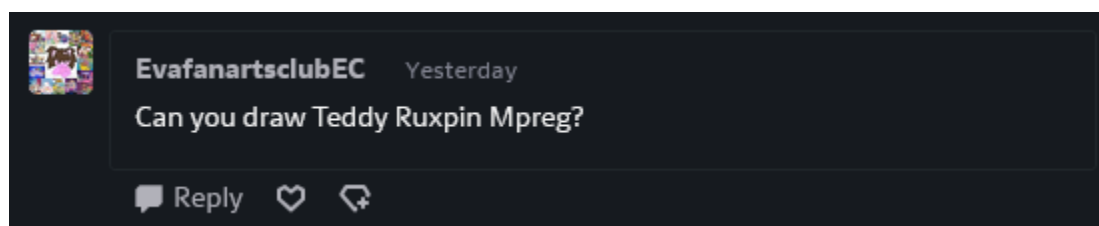

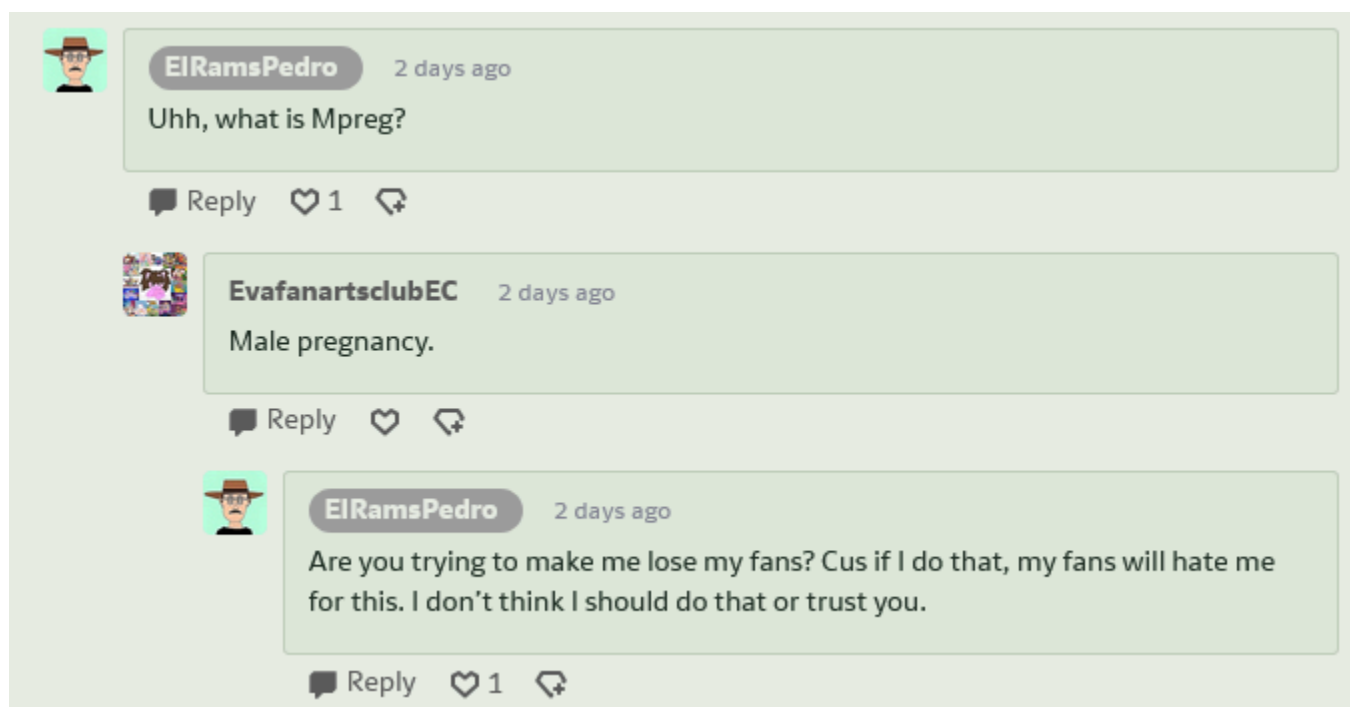

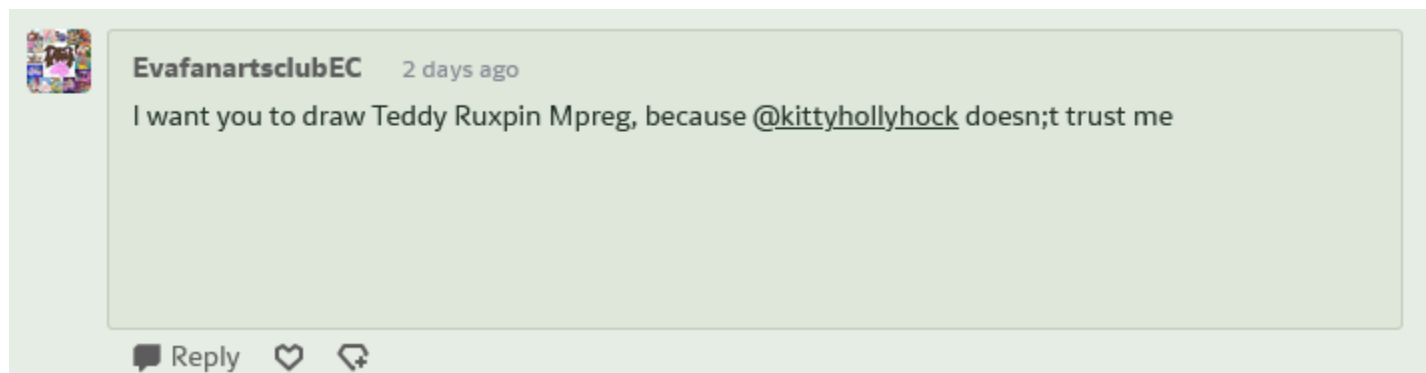

She posts that she dislikes NSFW/Rule 34 and any type of fetishes but then has inflation art as one of her likes. Idk if it's just me but I can only see Inflation as a fetish

And I've also gotten people messaging me with other things they've found

Teddy Ruxpin, the main character in The Adventures of Teddy Ruxpin, is a 15-year-old Illiop. He is kind, friendly, and loves adventure.

Teddy Ruxpin is also the name of an animatronic bear that reads children's stories. The original Teddy Ruxpin debuted in 1985 and was produced by Worlds of Wonder. Since then, other companies have produced their own versions of the toy, including Hasbro, Yes! Entertainment, Backpack Toys, and Wicked Cool Toys.

Toilet, fart,diaper fetish as well as gore and r*pe. Some of the said characters are minors. Oh yeah, you don't like that kinda stuff anymore but you're gonna request art from said artist as well as fave there fetish art

The one that really made me feel sick is the next screen shot

Eva requested a drawing from the person who posted this! And still she faved and wanted to be their friend after it.

Trigger warning: mentions of death and r*pe

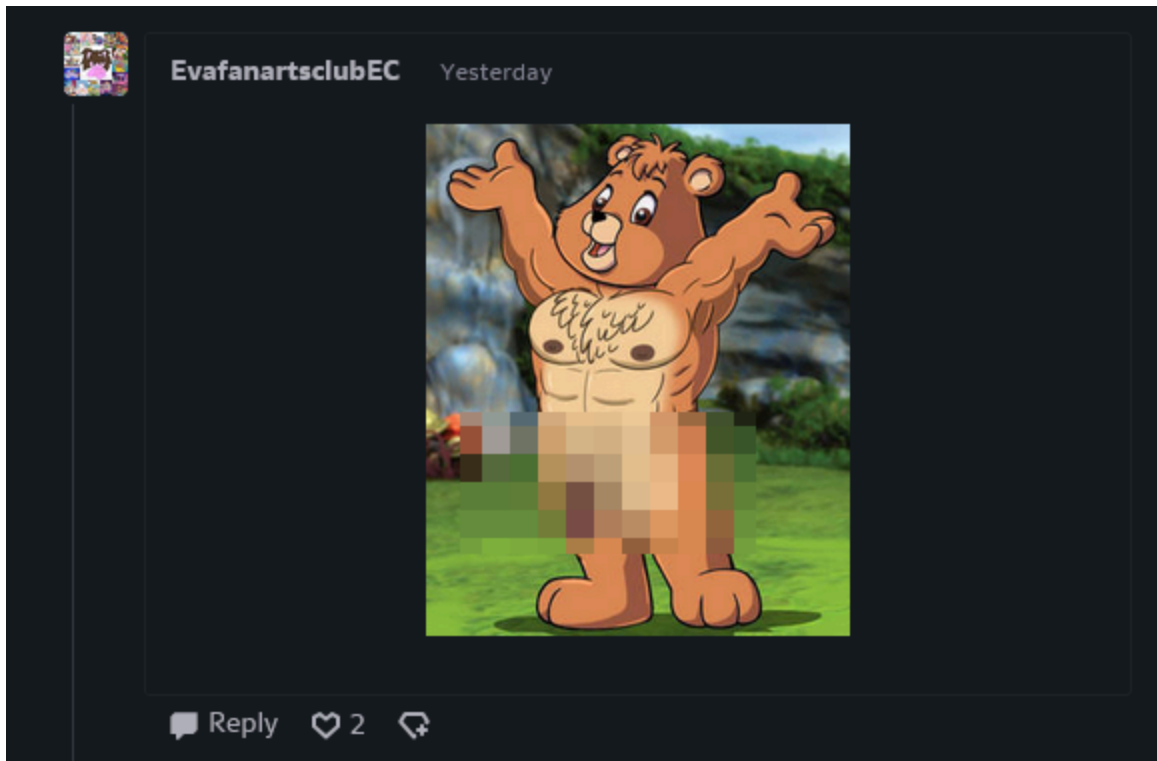

Just when I thought Eva couldn't get any worse

Update 1/10/25

Quick update since she's became friends with the user HorseRaper02 she has started to send NSFW images again, when she said she would stop months ago

(OMFG I'm an idiot I just realized the users name has "Raper" in it. I misread it the first time and thought it was Rapper. Further proving my question why she would want to be friends and request art from them. Eva is sick)

Note, she sent this image to HorseRape02 without them asking for it, so don't say she was tricked into sending them. She knows what she's doing

This comment was posted yesterday so, don't say "she's changed, she doesn't do that anymore"

Update 1/18/25

Yet again sending NSFW to users without being prompted

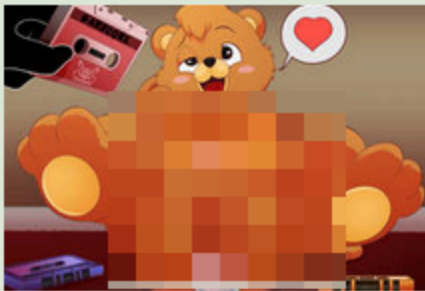

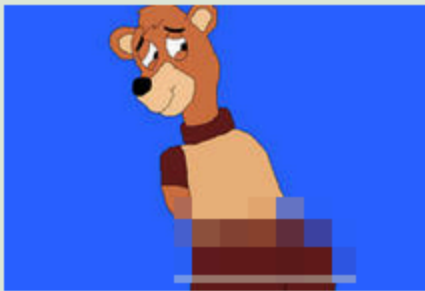

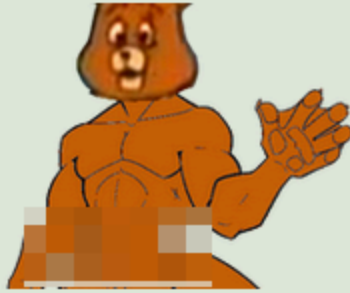

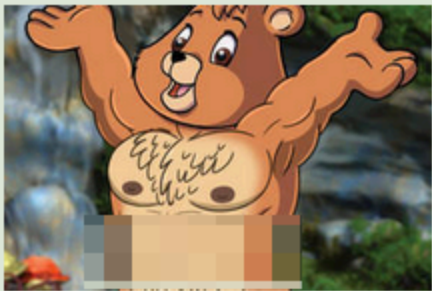

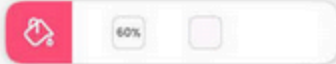

All the pictures have been saved in her stash for her to send to others in their comments

The last one there's no questioning looks like a child

And she's even saved NSFW of her Persona that was made as a troll when she said "don't make NSFW of my character" She knew she was encouraging people to draw it for her

One last thing for this update before waiting for her to do more horrible stuff (you know it'll happen) I just want to say I'm grateful for this doc making people aware of her but also please **do not spam** it to random people! I already blocked cafepuppyisback because they kept spamming this copied and pasted message

This is doing more harm than good! This is discrediting this doc into thinking its malware and that this a bot behaviour

Also the fact that cafepuppyisback also commented on Eva's page to make an anti group of my friend Danna. They're trying to make more drama then necessary

@Princess-Danna told me what you posted on Eva's page and I'm disgusted in your behaviour. Why on earth would you want Eva to make an anti group on my friend if you didn't just want to cause drama. I'm also getting sick of you spamming the doc to random people that was made to warn people that are already know her. The spamming is just discrediting the warning and to not take it seriously

For both of these reasons I have no choice to block you

Yeah, spreading the word about Eva doing fetish stuff is only going to give her more attention (not only from haters but from child predators who prey on hormonal kids as well) so the best course of action is to ignore her.

Leaving off on this comment from Eva's page that perfectly summarizes what I want to say

Guys, keep in mind, this is a minor. Sure sure, what she's doing may be illegal of course, but bullying a minor is also illegal too. just silently block the user, report offending artwork to deviantart staff and move about your day. there's no reason to drag random deviantart users into drama about this user you'd only see once or twice in your life time. we've been down this road before with rainbowkitty101. just block, it's that simple. yeah? we get it, she's drawn nsfw but just simply don't interact and move on. no need to spam her followers accounts with copy paste messages over and over. it's gonna come of as spam when people report them and it risks you getting banned for witchhunting users. again.. just ignore them and block them silently.

Update 1/25/25

And I'm back again~ I can't believe people are still defending her behaviour

Sending this same goddamn image to people, who never asked to see it, then going “woopsies”?

Because I like to draw babies being padded.

oh that's not...that's not okay

And WTF do you mean you like to draw babies being padded??? That is sick! It's one thing to say "oh babies are cute" but now you like the sexual fetish of diapers and are now getting babies involved into it! I know I said don't call Eva a p*do because she's a minor but she wants to sexualize actual babies not just people her age. A 15/16 year old shouldn't want to see a baby "padded"

Her yet again saying she wants to draw NSFW as a minor. She's not hiding this gross behaviour anymore

Oh, ok. But [@LugiaLover249](#) needs to unblock me!

Okay, and make sure to send these!

**I do not draw
fetishes
anymore.**

**I'm not a minor
anymore!**

**Guys, I'm not
requesting
NSFW content
anymore.**

Also stop asking people to ask LugiaLover to unblock you. They have seen this doc and know all the sick things you have done. You constantly lie with those status posts so I don't know why you are trying to say this is proof that you've changed
